HOME ELEVATORS & STAIRLIFT

NOVA SUITE HOMELIFTS From Italy

Since 1992, NOVA Elevators has been at the forefront of designing and producing state-of-the-art house lifts that blend mobility and aesthetic excellence. Nova Suite homelifts are renowned for their superior craftsmanship, energy efficiency, and versatile designs.

Quality: Meticulous attention to detail.

Customization: Suitable for various structures.

Energy Efficiency: Low energy consumption.

Safety & Comfort: Ensured with every product.

Design: High-quality, sophisticated designs.

Reliability: Smooth, silent operation.

Compact Suite

Ideal for narrow spaces, customizable with glass and metal finishes.

Grand Suite

Handles heavy loads up to 1,200 kg, enhancing accessibility and value.

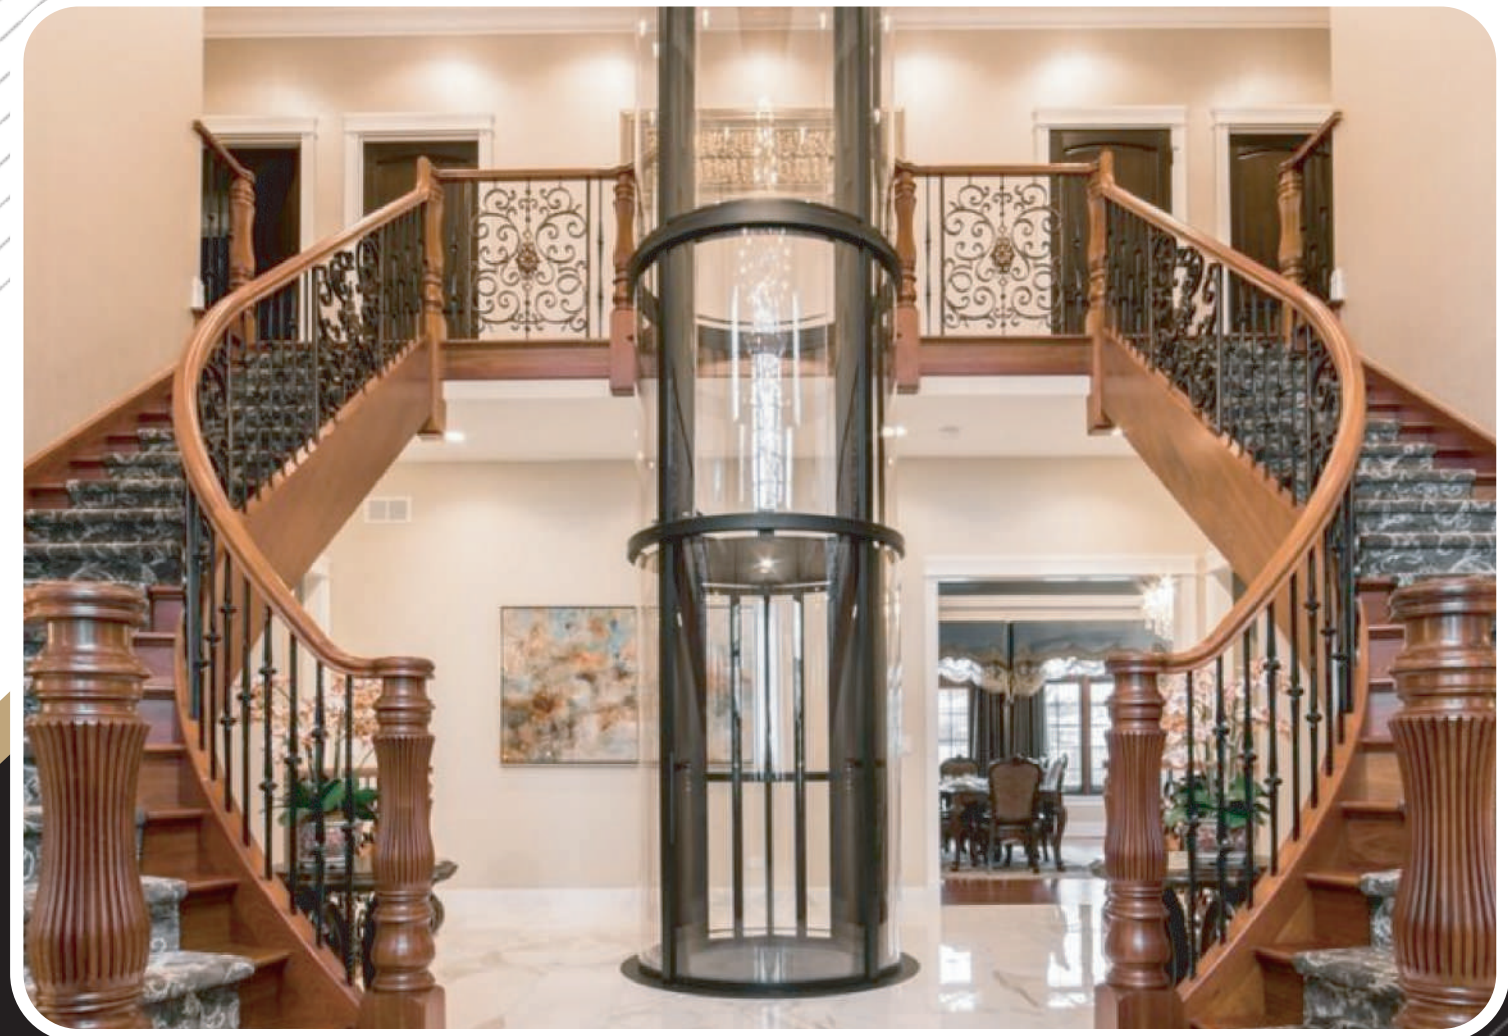

GP Hybrid

GP Hybrid Elevators blend Italian engineering with Indian craftsmanship. Advanced components from Italy and frames crafted in Mumbai ensure top-tier performance and aesthetic excellence. Gala Pegasus offers luxury home elevators combining fine craftsmanship and cutting-edge technology.

- * Partnering with top Italian manufacturers, we integrate advanced technical parts for superior quality.
- * Frames designed and crafted in Mumbai, showcasing exceptional local craftsmanship and attention to detail.
- * Customized elevators blend seamlessly with your home's interior, offering a unique, luxurious experience.
- * Equipped with the latest safety features, our elevators ensure utmost security and peace of mind.
- * Designed with energy-saving technology, our hybrid elevators minimize power consumption and deliver optimal performance.

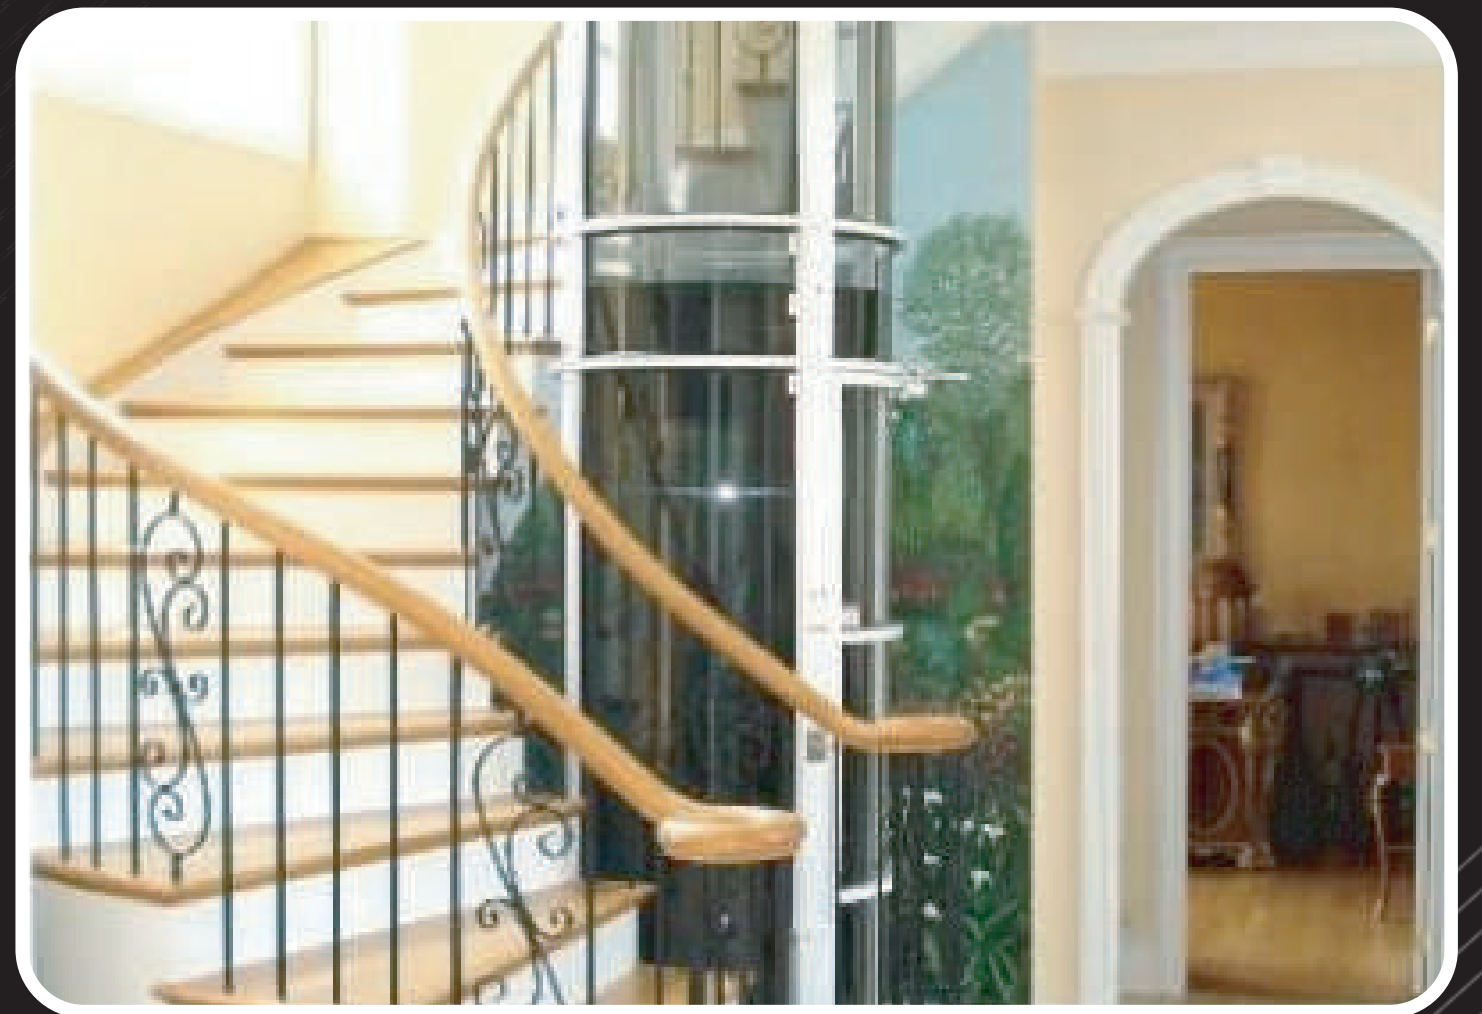

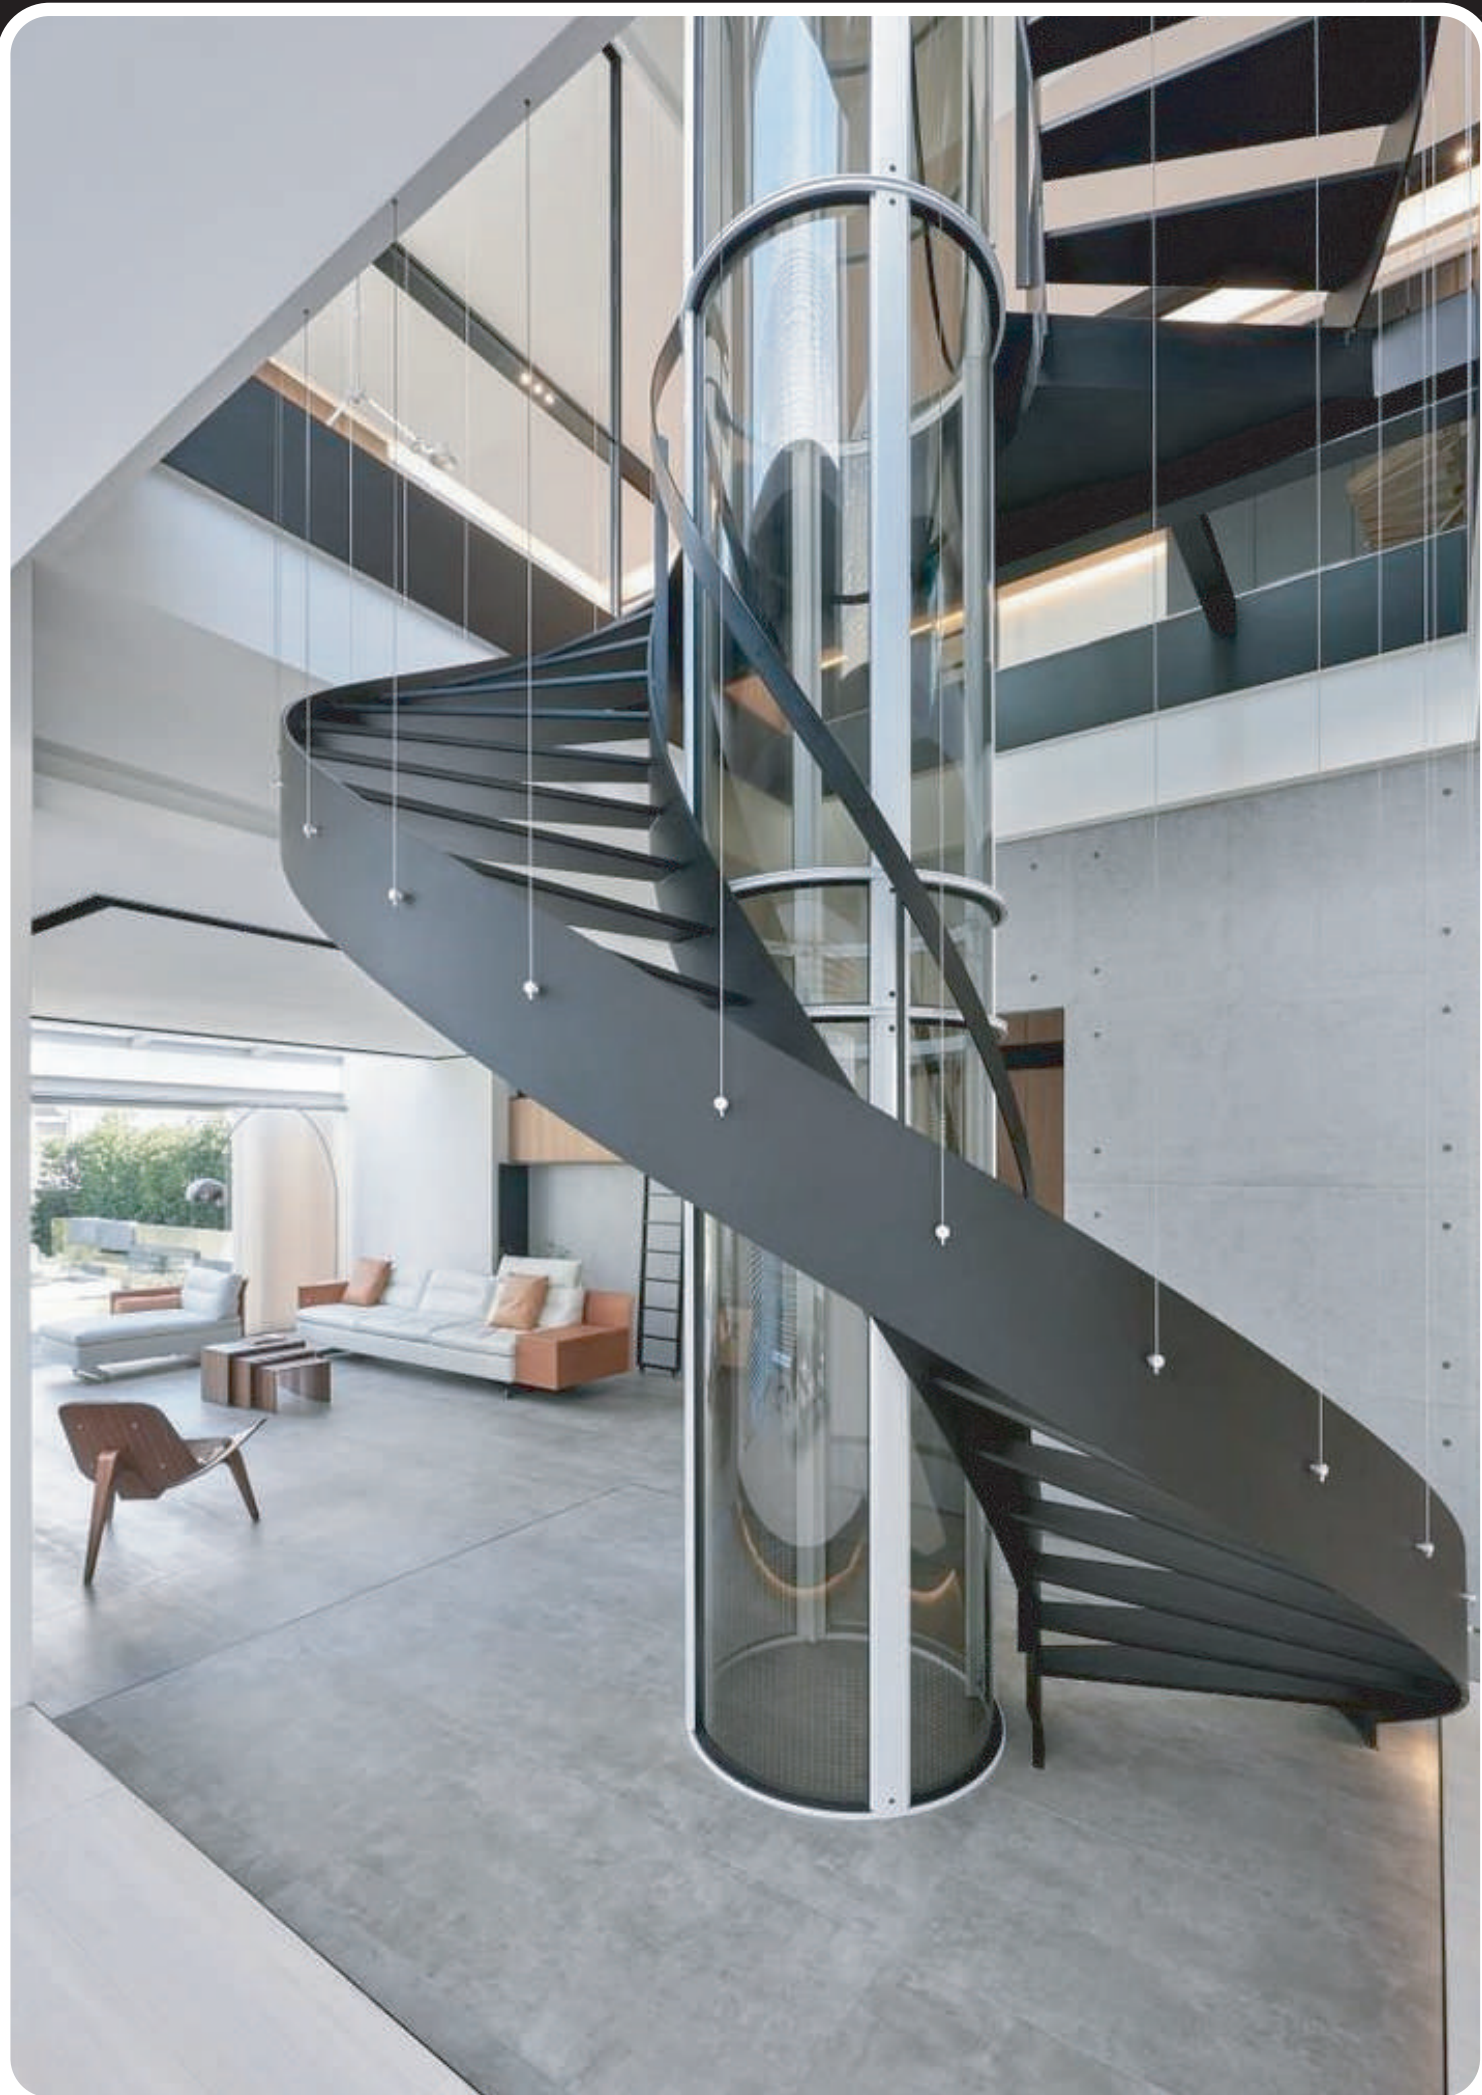

Vacuum elevator

Experience the future of vertical transportation with Gala Pegasus Seven Star's Vacuum Elevators. These state-of-the-art, cable-free lifts offer energy-efficient, sleek rides that prioritize safety, surpassing traditional lift expectations.

- * Reliable mechanisms ensure safety during unexpected events or power disruptions.
- * Durable polycarbonate sheets provide a safe, opaque enclosure with enhanced aesthetics.
- * Equipped for swift emergency response.
- * Safe, controlled descent during power outages prioritizes passenger safety.

STILTZ Trio+ Home Lift

The Stiltz Trio+ enhances residential mobility, providing a seamless alternative to traditional stairlifts. It installs quickly, operates quietly, and fits seamlessly into diverse spaces without needing load-bearing walls.

- * Self-supporting design fits diverse spaces.
- * Discreet operation with hidden components.
- * Easy installation, plugs into standard outlets.
- * Comprehensive safety features, including obstruction detection.
- * Fast one-day installation, minimal disruption.

STILTZ Duo+ Home Lift

Discover unparalleled home mobility with the Stiltz Duo+, an innovative lift that blends seamlessly into your living space. Engineered for flexibility and convenience, this quiet and discreet lift installs in just one day without needing traditional wall fixtures.

- * Full closure of the lift car door is required for movement.
- * Integrated brake system ensures comfort and safety.
- * Sensors automatically halt the lift upon detecting obstacles.
- * Battery backup allows safe return to the lower floor during power outages.
- * Load sensor prevents exceeding weight limits.

Superglide 130 stairlift

Superglide 130 stairlift, crafted in the UK by Acorn Stairlifts, meets all safety standards. This advanced DC-powered chairlift features new arm interlocks to prevent accidental use and a repositioned seatbelt for greater comfort.

- * Padded seat and backrest.
- * Controls are easy to access.
- * Safety Belts.
- * Folding footrest and armrest are available.
- * Swivel seat- no need for twisting the body to get on and off the lift.
